

PortailCoop, an initiative of the Institut international des coopératives Alphonse-et-Dorimène-Desjardins of HEC Montréal

PortailCoop is the world's largest digital library on co-operatives and mutuals. It promotes knowledge sharing and research on co-operatives by providing digital access to documents produced by co-operatives as well as to research on them.

PortailCoop offers co-operatives, researchers and the general public more than 25,000 contents in 19 languages that cover 100 years of history and constitute an international corpus. Several features, such as full text search, sorting of results and the interface's compatibility, facilitate documentary research. PortailCoop is continuously enriched by importing materials, while new collections highlight important themes for the co-operative movement. The team of PortailCoop welcomes suggestions to ensure the continued relevance of this reference platform for the co-operative movement.

To access PortailCoop resources and submit content, create an account for free and enjoy thousands of contents about co-operatives and mutuals.
